Breeding Soundness:

All Bulls have been evaluated for breeding soundness and Semen Morphology has been assessed by Dr Kim Kelly. Scrotal circumferences were measured using a Coulter Scrotal Tape Sept 9th-20th, 2019. Bulls were weighed Sept 20th. A birth weight of 32kg has been deducted to calculate Daily Liveweight Gain (DLG).

Vaccinations:

3 germ blood given as weaners.
7-in-1 and Vibrio boosters given 24/7/2019
3-day Sickness (BEF) booster given 9-20/9/2019

Note:

Lot 145 will sell after Lot 118

Highlighted in green are bulls that have been running on oats pasture for the past 8 weeks. These were selected at this date because their weight gains were lower than the other bulls due to not consuming as much supplementary feed.

Highlighted in yellow are the weights and weight gains of those bulls who had less supplementary feed up until the 400-day weights were taken. Their whole of life daily liveweight gain (DLG) is affected as a result. You will also note the resulting lower actual scrotals and carcass scans at 400 days on the Performance Table on Pages 16-20 of the catalogue.

The Group Breedplan EBVs of these bulls are a more accurate measurement of their genetic capability for each trait.

THANKYOU FOR ATTENDING THE 63rd ANNUAL ROSEVALE SALE. SAFE TRIP HOME.

ROSEVALE GIPSY H97 (P)

BENELKAY LIFELINE (P)

ROSEVALE ROWENA L431 (P)

ROSEVALE ROWENA G153 (P)

Rowena L431(P) calved first as a two-year-old, has had three calves in three years, and is PTIC. Lancelot P620 is the first of her progeny to classify S while one sold as a herd bull.

Rowena G153(P) is one of our highest performing cows. She calved first as a two-year-old, has had seven natural calves in seven years, and is PTIC. Three additional calves have been born via IVF and are weaners. Four classified S progeny out of six that have been eligible include Gallipoli K436(P) who sold for \$4,000 to the Gall Family.

LOT 145 ROSEVALE DARWIN P1122 (PP) HERD BULL

Calved: 13/07/2017

26 months

KIDMAN PARK B280

KIDMAN PARK J904 (P)

KIDMAN PARK A411

GRP ANGUS/SHORTHORN COW (P)

Darwin P1122's dam is an Angus/Shorthorn cross cow who has bred well. She calved first as a two-year-old and has had six calves in six years. Three of these have been retained as bulls to date and include a son sold to Gary Bourne in SA. She consistently weans one of the heaviest weaners in the GRP herd.

Darwin P1122(PP) is a long bodied, roan coloured bull whose blood content is 50% Santa Gertrudis, 25% Shorthorn, 25% Angus. Note that he is homozygous polled.

This bull will sell following Lot 118 in the sale.
