# AuctionsPlus

## How to Register and Bid on AuctionsPlus

1

Go to [www.auctionsplus.com.au](http://www.auctionsplus.com.au) to register at least 48 hours before the sale.

7

Fill in buyer details and once completed go back to Dashboard.

2

Select "Sign Up" in the top right hand corner.

8

Complete buyer induction module (approx. 30 minutes).

3

Fill out your name, mobile number, email address and create a password.

9

AuctionsPlus will email you to let you know that your account has been approved.

4

Go to your emails and confirm the account.

10

Log in on sale day and connect to auction.

5

Return to AuctionsPlus and log in.

11

Bid using the two-step process – unlock the bid button and bid at that price.

6

Select "Dashboard" and then select "Request Approval to Buy".

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: [info@auctionsplus.com.au](mailto:info@auctionsplus.com.au)

*Every care has been taken in compiling the catalogue & supplementary sheet for the Yarrabee Santa Gertrudis Bull Sale to ensure accuracy of information supplied but no responsibility is accepted for any errors which may have occurred. All persons who attend the sale do so at their own risk and the vendors, selling agents & saleyard management assumes no liability, legal or otherwise, for any accident which may occur.*

# WELCOME

On behalf of the Barlow families of the Yarrabee, Wilamba, Yarrajay and Leaowen prefixes we welcome you to our inaugural Yarrabee Santa Gertrudis Bull Sale. Our catalogue of 36 bulls represents the best of their year and involves both polled, dehorned, classified and purebred males.

All the family stud prefixes are run in conjunction with the Yarrabee operation with a strong emphasis on beef qualities, breed standards, character and fertility.

Many changes have taken place in the past twelve months, most importantly of these the relocation of the sale venue and the sale date. We felt these two decisions would best suit the running of our operation and in the process assist the needs of our clients and supporters.

We welcome presale inspections any time by arrangement with one of our family.

The entire sale team will be assembled, penned and available for inspection from 3pm Tuesday, 29th September at the AgGow Selling Complex and Site.

For those who may not be able to attend the sale phone bidding is available with very good mobile reception at the selling complex. In a bid to facilitate and assist potential buyers we have also added another buying option, whereby the sale will be interfaced on the AuctionsPlus network.

We will also be following all COVID 19 protocols to ensure the safety of persons attending the sale.

## SALE INFORMATION

- All bulls have been vet checked including crush side semen tested and soundness evaluated by an accredited veterinarian.
- All bulls will have weights, daily gains, eye muscle & fat scans and scrotal measurements.
- All bulls will have EBV's where available plus their dams' calving history. Unfortunately the bulls missed their March/April scans and as a result some EBV figures are missing. This was an unintentional oversight.
- All bulls will have had **2 TICK TREATMENTS** prior to sale to assist buyers with clearance to tick free areas.
- All bulls will be up to date with vaccinations for **7 IN 1, 3 DAY SICKNESS, 3 GERM BLOOD & BOTULISM**.
- All bulls will be NLIS tagged and transferred to your nominated PIC.
- A **3% Vendor Rebate** will **ONLY** be allowed to **outside agents who nominate intending buyers in writing 24 hours prior to sale, accompanying them to the sale & making full settlement on their behalf within 7 days.**
- **FREE FREIGHT TO SALEYARDS AT** Biloela, Eidsvold, Monto, Moura, Taroom, Rolleston, Springsure, Emerald, Clermont, Alpha, Nebo, Blackall and Gracemere.

# TECHNICAL DATA

## HORN/POLL

Understanding the horn/poll status of a bull is a very important aspect when determining whether a potential new bull meets your breeding requirements. The varying status bulls may carry can have a significant impact on the future of your herd. Animals may carry one of three statuses in relation to horned or polledness, and it's the combination of the bulls's status and the dams that determines the progeny status. The polled variant of the gene (P) is dominant to the horn variant (H). Simply breeding genetically polled bulls to random females will quickly lower the percentage of the calves that have horns.

### Genotype, Status & Explanation

#### PP **Homozygous Polled Status – Polled**

The animal possesses two copies of the poll variant of the gene. This animal is highly likely to express a polled phenotype and should always pass a poll variant to its progeny.

#### PH **Heterozygous Polled Status – Carrier**

The animal carries one copy of the poll variant and one copy of the horned variant of the gene. This animal is highly likely to express a polled or scurred phenotype and will transmit either the horn or poll variant to its progeny.

#### HH **Homozygous Horned Status – Horned**

The animal carries two copies of the horn variant of the gene. This animal is highly likely to be horned and will always transmit the horn variant to its progeny.

## EBVs (ESTIMATED BREEDING VALUES)

Group Breedplan calculates predictions of genetic merit called EBVs for a range of traits on a national across-herd basis. The EBVs are calculated using information of the animal's performance, the performance of all known relatives, the relationships between the traits and the pedigree links between animals and between herds.

### Accuracy

An accuracy is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and it's relatives. The following guide is given for interpreting accuracy:

#### **Accuracy range Interpretation**

Less than 50%	EBVs are preliminary and could change substantially as more performance information becomes available.
50-74%	Medium accuracy, usually based on the animal's own records and pedigree. Most Sale animals will appear in this range.
75-90%	Medium-high accuracy. Some progeny information included. It is unlikely that EBVs will change much with addition of more progeny data.
More than 90%	High accuracy estimate of the animal's true breeding value.

*For more information contact the vendors or Paul Williams, Technical Officer, TBTS 0427 018 982, 07 4927 6066, paul@tbts.une.edu.au, tbts.une.edu.au*

# SIRE REFERENCE

## CARDONA N205 (P)

**N205** was purchased as a calf at foot in 2013 at Cardona Female Reduction Sale and he was kept for a stud sire for his bone, muscle, conformation fertility and temperament. These traits are evident in his progeny. 19 Bulls have sold to average \$5973.

**LOTS: 5, 7, 13, 14, 20, 27**

## CARDONA POWERSTROKE P193-M (PS)

**POWERSTROKE** was purchased in 2017 and has produced quality beef bulls. The bone and muscle of this bull has been passed onto his progeny. We have been very pleased with his calves. He was placed in the commercial herd last year but will be bought back into the stud herd again this next season.

**LOTS: 6, 8, 18, 31, 32, 35**

# SIRE REFERENCE

## GLENN OAKS JUMBO BWANA J26 (P)

**Jumbo** is a stand out bull being very quiet and fertile with weight for age (well over 1000kg) in working condition. The muscle, conformation, performance and quiet temperament are all traits seen in his progeny. 16 bulls have sold to average \$8281 with Yarrabee Gunyah 1377 (P) selling for \$53000 to Glenn Oakes and Diamond H Studs. Son Yarrabee Himalaya 1393 (P) came 3rd in his class at the 2019 Emerald Santa Feature Show and 4th at the 2019 Brisbane Ekka and sold to Craig Hindle, Bullamakinka Stud in 2019.

**LOTS: 3, 36**

## YARRABEE DUKE 1201 (P)

**Duke** a home bred sire - a son of Yarrowonga Wager being very well-muscled bull with a clean coat, conformation, good temperament and excellent fertility. Calves have been pleasing, showing qualities of their father with weight for age and performing very well with 12 bulls in this sale. Unfortunately his mother died of a leg injury so Duke was her only calf.

**LOTS: 1, 2, 4, 9, 11, 12, 15, 17, 19, 22, 28, 29**

## BULLAMAKINKA M078 (PP)

**M078** was purchased for \$52,500 in 2018. He missed his first season because he developed 3 day, 3 weeks after he arrived at Yarrabee. The next season he sired around 50 calves and this season has had about 30 calves from heifers in 5 weeks. The calves are standout calves and will be in the sale team next year.

## YARRABEE HALLIDAY 1445 (P)

**Halliday** is a home bred sire by Yarrowonga Wager 996 (P). He was the Reserve Bull Calf Champion at the Emerald Feature Show and came 2nd in his class at Ekka in Brisbane. Correct bull with bone, muscle and size and great temperament. He has calves on the ground and look forward to watching them as they grow.

FMC, in conjunction with strategic partnerships, is providing in-field solutions for graziers looking to cost effectively control Brigalow regrowth, tea tree regrowth, mimosa pigma and other registered woody weeds on grazing lands.

Plan your regrowth control now by combing the highest quality Tebuthiuron pellet on the market, Graslan Herbicide with the effectiveness of an independent vegetation mapping consultant to make your paddocks more productive.

## Aerial Application

### AERO PROFESSIONAL SERVICES

FMC is pleased to partner exclusively with Aero Professional Services (APS) to deliver precision aerial application of Graslan. APS has been applying Graslan in Queensland for 22 years using specific custom built application equipment, and a highly experienced team of pilots and ground crew. APS is the market leader in this segment, when it comes to Graslan on the best will do!

## STUD STOCK — AUCTION TERMS AND CONDITIONS OF SALE

**IMPORTANT NOTICE: All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.**

1. The highest bidder shall, subject to Condition 2, be the Purchaser provided that the Vendor reserves the right to bid either by himself or through his Agent or Auctioneer and should any dispute arise among the bidders for any lot, during or immediately after the sale of the lot, it shall be settled at the Auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the Auctioneer and no bid shall be retracted.
  2. The sale will be conducted on a "Sale" or "No Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the Vendor who will immediately after the fall of the hammer declare "Sale" or "No Sale". Should the Vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the Vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
  3. The details of the Purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the Auctioneer shall be equally binding on both Purchaser and Vendor.
  4. The Auctioneer expressly reserves the right, without giving any reasons therefore, to:
    - (a) Refuse to acknowledge any bid;
    - (b) Withdraw any lot or lots before or during the sale;
    - (c) Exclude any person from the auction venue should it think fit.
  5. Each lot in all cases shall be at the risk and expense of the Purchaser upon acceptance of his bid by the Vendor or upon acceptance of the highest bidder's offer by the Vendor whichever shall be the earlier.
  6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the Vendor or by the Auctioneer acting as agent for the Vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee, warranty or condition whatsoever was given or implied.
  7. In the event of any dispute in respect to the sale of any lot:
    - (i) The Purchaser shall nevertheless be obliged to pay to the Auctioneer the full purchase price and any other monies or interest payable by the Purchaser in accordance with these terms and conditions;
    - (ii) The Vendor and the Purchaser shall resolve the dispute between themselves;
    - (iii) The Auctioneer shall have no liability or responsibility in regard to the dispute; and
    - (iv) No lot shall be returned to the Auctioneer and the Purchaser shall indemnify the Auctioneer for all costs, expenses and damages which the Auctioneer is put to or incurs by reason of the Purchaser so doing.
  8. The name of the Vendor for whom the Auctioneer acts is acknowledged to have been furnished to Purchasers prior to the sale and further particulars will in all cases be furnished to a Purchaser if required. In the case of any disputes the remedy of the Purchaser shall be against the Vendor only and in no case or under any circumstances against the Auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
  9. (a) **PAYMENT** — Unless prior credit arrangements have been made in writing with the Auctioneer the full purchase price for each lot shall be due and payable to the Auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the Vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the Purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the Purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the Auctioneer reserves the right to:—
    - (i) Rescind the contract on behalf of the Vendor and repossess and resell any lot;
    - (ii) Recover from the Purchaser interest upon the purchase price at a rate per annum which aggregates the AMBA Bill Rate plus two percentum. For the purposes of this condition, the expression "the AMBA Bill Rate" is the rate published by the Australian Merchant Bankers Association in good faith as at the date of the sale as its bill rate for 180 day bills of exchange expressed as a percentage per annum. If at any time the AMBA Bill Rate becomes unavailable for any reason, the Auctioneer shall determine and advise the Purchaser of the interest rate to apply for the purposes of this condition.
  - (b) The Auctioneer is selling as the del credere agent of the Vendor and the full purchase price of any lot sold shall be payable by the Purchaser to the Auctioneer and be fully recoverable by the Auctioneer in its own name.
10. If the Purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former Purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
11. Any Vendor or Purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.
12. The Purchasers, if any more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.
13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the Vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the Vendor or Auctioneer, provided however, that this Condition shall not in any way negate the Vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
14. The Auctioneer may, should it think fit, make arrangements on a Purchaser's behalf for the feeding, watering, trucking, shipping and general attendance to any lot after sale but no responsibility will be accepted by the Auctioneer and all such service will be at the Purchaser's risk and expense.
15. No lot will be delivered until the sales invoice has been checked and signed by the Purchaser or his duly authorised representative.
16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement of warranty, statutory or otherwise, is hereby excluded. The Auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the description of pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the Purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
- (b) Each lot will be sold subject to passing all veterinary tests required by the law of the state or country to which the Purchaser intends to transport that particular lot, such tests to be undertaken at the Purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the Purchaser shall be refunded and property in the lot shall revert to or remain with the Vendor.

17. Guarantees of Fertility:—
- (1) BULLS - Save and except for calves at foot, all bulls are guaranteed breeders and to so prove by the later of:
    - (a) six months after the date of sale or
    - (b) the animal reaching the age of 24 months
  - (2) FEMALES - Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf by the later of:
    - (a) 6 months of the date of sale
    - (b) the animal reaching the age of 30 months

A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.
  - (3) Claims under Clauses 17(1) and 17(2). A claim that an animal has failed to satisfy a guarantee of fertility under Clause 17(1) or 17(2) must be made to the Vendor within the relevant guarantee period but prior to the animal entering a quarantine area other than on the Vendor's property.
    - (a) All claims must be accompanied by a certificate from a registered veterinarian surgeon in accordance with the guidelines established by the Australian Association of Cattle Veterinarians which must clearly identify the basis of the claim.
    - (b) Subject to Clause 17(9), infertility resulting from injury or disease occurring after the sale of the animal is not covered by this guarantee.
    - (c) The Vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. If the animal proves fertile within the period such status must be confirmed by a certificate issued by a registered veterinary surgeon in accordance with the guideline established by the Australian Association of Cattle Veterinarians and costs incurred must be borne by the Purchaser. If the animal is not proven fertile within the period, the costs incurred must be borne by the Vendor.
  - (4) LIABILITY OF A VENDOR - Except for costs defined elsewhere in the conditions of sale, the liability of a Vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or provide mutually agreed upon replacement animal(s).
  - (5) In the event of a claim being substantiated:
    - (a) The purchase price shall be refunded within 14 days unless a mutually agreed upon replacement animal has been provided.
    - (b) The animal/s which are the subject of the claim shall automatically become the property of the Vendor and be returned to him or disposed of according to his instruction at his expense.
  - (6) Subject to Clause 17(9), this guarantee is of no effect if:
    - (a) The animal is returned to the Vendor.
      - (i) In poor physical condition or with any injury;
      - (ii) Tests carried out on behalf of the Vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally; or
    - (b) The Purchaser has collected and stored semen from a bull or
    - (c) The Purchaser attempted any form of embryo collection from a female.
  - (7) In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the Vendor and the Purchaser. The Auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. If an animal is alleged or proved not to be a breeder, the Purchaser must nevertheless pay the Auctioneer the full purchase price and any other monies or interest payable by the Purchaser in accordance with these Terms and Conditions.
  - (8) EVIDENCE OF FERTILITY — A Certificate issued by a registered veterinary surgeon at or before the time of sale than an animal is fertile (unless it is a certificate stating in respect of a female that she is in calf at the time of sale) does not, of itself, satisfy or discharge the Vendor's obligations under the guarantee of fertility given under this Clause 17. All animals, except calves at foot, must prove their fertility within the relevant guarantee period.
  - (9) RELIEF FROM GUARANTEE — If the Vendor seeks to be relieved from the obligations which would otherwise be imposed upon him by this clause by virtue of Clauses 17(3)(b) or 17(6)(a), the onus of proof is upon the Vendor to establish that:
    - (a) The animal suffered the injury or disease or is in poor physical condition due to circumstances and events occurring after the sale, and
    - (b) The injury, disease of physical condition is the sole cause of the animal's infertility or failure to prove fertility within the guarantee period.
  - (10) DEFINITION — For the purpose of this Clause 17, the expression "guarantee period" means:
    - (a) in relation to bulls — the period specified in Clause 17(1) as being the period in which the bull must prove his fertility; and
    - (b) in relation to females — the period specified in Clause 17(2) as being the period in which the female must go into calf.
  18. (a) Each lot shall be at the risk of the Vendor in respect of any damage or injury, whether by disease, accident or otherwise, or whether caused by the negligence of the Auctioneer for the period that the lot be in the custody of the Auctioneer, unless such lots shall have been sold in which latter case such lot shall be at the risk of the Purchaser in all such respects.
  - (b) If any Vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that Vendor shall be liable for all injury, damages, costs, losses or expenses which the Auctioneer may sustain, incur or be put to either directly or indirectly as a result of the Vendor so doing. The Auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
  19. DELIVERY — Except at the discretion of the Auctioneer no lot shall be delivered to the Purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the Auctioneer pursuant to Condition 14 hereof, is first made by the Purchaser to the Auctioneer. Release of lots may be withheld by the Auctioneer until personal cheques are cleared.
  20. In these Conditions:—
    - (a) References to "Auctioneer" shall be taken to mean as the context so admits, the Selling Agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the Vendor to conduct the sale of the lot;
    - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1;
    - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;
    - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the Auctioneer on behalf of a Vendor.
