Buy and Sell stock nationally

INSPECTIONS

Sale time is 12noon and inspections can be made from 9am on sale day. Cattle will be at the sale complex the day prior to the sale and can be inspected after 3pm.

REFRESHMENTS

Morning tea and barbecue lunch will be available at the sale complex.

SALE DAY SAFETY

Disclaimer: Visitors entering sale pens do so at their own risk. If you are limited in your mobility or have small children with you, please do not enter the pens. All Covid-19 precautions will be applied.

MOBILE PHONES / PHONE BIDDING

Elders will have agents available to take your bid if you are unable to attend. Please make arrangements prior to sale day:

- Blake Munro (Elders) 0428 862 469
- Andrew Meara (Elders) 0427 210 634

SUPPLEMENTARY SHEETS

All females presented for sale as PTIC will be accompanied with a pregnancy certificate. Any further information supplied by the vendor will be noted on the Supplementary Sheet.

DELIVERY

All cattle must be removed from Talgai Homestead by Sunday 5th September 2021. Transport and holding yard alternatives will be available. Please coordinate with Elders staff regarding delivery. No cattle will be loaded before completion of the sale. No lots are to be penned together before loading.

INSURANCE

An insurance representative from Elders will be in attendance on sale day. All lots become the buyer's responsibility from the fall of the hammer.

CONDITIONS OF SALE

Conditions of Sale are displayed in the catalogue.

OUTSIDE AGENT REBATE

3% rebate will be given to outside agents who introduce clients to the sale 24 hours prior to sale date and finalise payment within 7 days.

Whilst all care is taken, people attending the Big S Group sale at Talgai Homestead do so at their own risk and no responsibility will be accepted by Nioa Stud, Elders Limited, Big S Group Committee & Sale Vendors or the owners of the property.

WELCOME

I would like to extend a warm welcome to you all on behalf of the Big S Group and the Nioa team.

Today marks our 47th annual bull and female sale and again it will be hosted by Rob and Eliza Nioa at the picturesque Talgai homestead which is home to the renowned Nioa santa gertrudis stud.

How one year on can be so different from the previous. This year most of our members have come from possibly their worst dry spell they have experienced into maybe one of the best winter starts for a long time. This year the vendors have put together a tremendous draft of cattle which represent some of the industries top genetic bloodlines. Last year fifty percent of our bull offering ranged between 6-7.2 for their IMF scan results, which I believe will have a positive effect on softness, fertility, doing ability and marketing ability of their progeny. Today our vendors present their cattle to you full of confidence as they will be classifier inspected and will be accompanied with a vet certificate. Again this year our physical sale will be linked to auctions plus for those of you who cannot join us on the day.

Finally I would like to thank Elders, all sponsors, Big S Group members, Rob and Eliza Nioa with Shannon and his team for all your tireless effort and support for making today such a success.

Regards

Glenn Parish

GYRANDA

Established in 1953, Gyranda was one of the foundation Australian Santa Gertrudis studs. Today we pride ourselves on being one of the most progressive and successful seedstock producers in the country. Gyranda cattle have developed a reputation for being able to combine fertility and constitution with those often contradictory traits of growth and carcass. Our bulls service a large swath of commercial herds across northern Australia and our females are prized as the perfect dam in both purebred and crossbred herds in Southern Queensland and Northern NSW. All females offered at the Big S Sale are pregnant, Classified and carry the full set of EBV data for your piece of mind. They offer an extraordinary opportunity to upgrade your herd.

HALLCRAIG

Hallcraig as registered in 2006 after using Santas in a crossbreeding program over black baldie cows for 25 years. 'S' Females were purchased from Rosevale, Eidsold Stn. Santalands, Kamawa and Hartwood.

Hallcraig is situated in the northern tablelands at an altitude of 930 m. Stud cows get no preferential treatment. They are run like commercials. Functional, fertile and easy doing cattle is the end result.

HIGHWOOD STUD

1884

Highwood Santa Gertrudis was established in 1996 by the Christensen Family of Kilcoy. A small herd of cows brought from Santaland's stud and was the start of our breeding program. We then added numbers from several dispersal sales. By doing this we secured the best female genetics available. We have since expanded our operations in the Linville region of the Brisbane Valley.

Our current bulls include Wave Hill, Greenup, Glenn Oaks bloodlines and are selected for doing ability, fertility in light forest country. The bulls for sale are the first lot of bulls to be offered at a public auction. While we are always trying to improve our current genetics by attending several different sales, we only offer our top-quality bulls for sale. We also run a AI and IVF program with our elite females to ensure we offer the best genetics available. All our bulls are run on coastal forest country and are ready to go to work. We are very excited about the future of Highwood Santa Gertrudis and invite you to be apart of the journey.

LINLANDS

The Lindemann Family are always and in many ways committed to breeding fertile high performance cattle. Weaner cattle at Linlands are raised on lucerne and lab lab. These weaners are known for their constitution and doing ability and in particular, their ability to gain weight under favourable conditions, making them into the high performance cattle presented to you today.

Our studstock are guaranteed breeders. Our client support goes beyond the sale ring in saying that all cattle are vaccinated for 3 in 1, 5 in 1 and semen tested and soundness evaluated. Leaving us in no doubt all our bulls will perform.

Linlands advocates balanced assessment criteria for cattle selection. This combines visual appraisal for structural soundness, temperament and overall conformation and the use of measurement data eg: DWG, EMA, SS, Rib Fat, Rump Fat.

To bring the standard of our stud to what it is today, sires for the 2019 sale are Yulgilbar Guru G048 (P) and Yarrowonga Donatello. The main concentration has been on topline, hindquarter, breed character and temperament.

Yulgilbar Guru was purchased for his high rib fat and rump fat so as to increase our female line overall fat content. His overall performance in most areas has been outstanding. Temperament of his calves being his top performance.

Yarrowong Donatello was mainly purchased for his DWG. This bull is the true performance bull allowing his females to produce small calves at birth. All his progeny are displaying their sires DWG ability during their growing period.

Efficient breeding cows require cattle that will thrive in low input environments, breeding for consistency, longevity, fertility and disease resistance will all help out these economic costs.

Cattle of the future will have to grow, fatten and marble more quickly at a younger age – performance will be the key word when selecting a new sire.

NIOA

About us

NIOA Pastoral company was formed by Robert and Eliza Nioa to manage the family's Santa Gertrudis Stud. The stud is based at Talgai Homestead which is located on the fertile Darling Downs near the town of Allora Queensland.

Talgai Homestead has been home to several Santa Gertrudis Studs over past generations and the Nioa family is excited about continuing the tradition.

From the outset the family has set about acquiring some of the best genetics available and have an intensive breeding plan in place. 2017 saw the start of an AI and ET program which then lead into an IVF plan for 2018-19-20.

The Stud is focused on Performance and Fertility and are committed to promoting and improving the Breed.

Our cattle

With a focus on high-performance polled cattle that retain power, fertility and soundness that the Santa Gertrudis breed is renowned for. Females have been sourced from Studs including: Bullamakinka, Goolagong, Glen Oaks, Talgai, Riverslea and Yulgilbar. Our IVF program has been strongly supported by Gylanda and Rosevale Studs. Semen has been selectively sourced and has been used as well as our own sires.

Our leading sire Wave Hill Jager J14 (PS) was purchased at the 2015 Santa Central Sale for equal top price of \$67,500 after winning Grand Champion Santa Gertrudis Bull at the Brisbane Exhibition. Included in Wave Hill Jagers first crop of calves was Nioa Marksman M06 (P) who won Junior and Grand Champion Bull at Sydney Royal Show 2018. Nioa also won Sires Progeny Group (Wave Hill Jager) as well as Breeders Groups the same year.

With an outstanding show career behind him Wave Hill Jager is exceeding our expectations as a herd sire, most importantly Jager has passed on his do ability and relaxed temperament to his progeny.

The Future

Nioa plans to have its first on property sale in conjunction with the Big S Group this coming September, we hope to offer 40 future sires in a multi-vender sale at the heritage listed property Talgai Homestead, Allora as well as a small number of females.

DSB SANTA GERTRUDIS STUD

DS Bradley & AJ MacKay (DSB)

Our cattle farming business was established in 2004 with six Santa Gertrudis 2X cows and a classified bull which were generously given to Doug by Michael Rankin of Hartwood Pastoral Company (Stud No. 827) when Doug left his employment to start his own farm.

Doug lived at Hartwood Station near Cobar, NSW working as a station hand for nine years, prior to us moving to Nottingham Park, near Ashford in NSW. Working alongside Mike Rankin

(and Gordan Bevan of GBL Stud), Doug obtained invaluable experience in breeding Santa Gertrudis stud cattle. Previously, Doug also worked for a dairy farm on the south coast of NSW.

Shortly after moving to Nottingham Park, another ten cows were purchased from Mike, which together with the original six cows, formed a foundation herd of Santa Gertrudis females. Our entire herd has been bred from these hardy cattle from western NSW.

Our first bull Hartwood 781 (PS) (AI) was affectionately known as 'Big Boy'. The son of Murgo Farrer (PS) and Hartwood 552 (P), Big Boy was a naturally quiet bull, being amenable to pats, scratches and even being sat upon. If the house yard gate was left open, you could be sure he would wander in for a visit!

We registered our stud in 2011. A full set of records enabled our herd to be inspected, with a significant proportion of our females being classified.

Along the way we have purchased sires from Waco, Yulgilbar, Hallcraig, Glen Oaks and Wellbatch studs.

Our focus is breeding dark poll bulls, which are naturally quite to handle whilst retaining plenty of santa breed character. The majority of our female herd is polled, and we use only poll or poll scur sires.

DS Bradley & AJ MacKay uses the stud prefix DSB, derived from Doug's initials. All our bulls are fire-branded 'TDB'.

Please feel free to contact Doug or Alison on 02 6725 4425 if you have any queries about our bulls, or if you would like to inspect the bulls at our property prior to the sale.

Please refer to our website bradleysantas.com.au or our Facebook page Bradley Santa Gertrudis Stud for more information about our cattle.

ROSE OAK

Rose Oak Santa Gertrudis Stud is located in the foothills of the Great Dividing Range, at Flagstone Creek near Toowoomba. Luke and Tanya Hoare registered the stud in 2001 with the breeding focus to be on seed stock. To date we have concentrated on building a herd of quality females.

In 2001 we purchased a heifer from Yarrawonga Waco Stud. Mr & Mrs Bassingthwaighte generously allowed Tanya to select a heifer, this heifer Yarrawonga X163(Ruby), became the

foundation of our stud. Ruby had a great show career winning many Santa Gertrudis Exhibits, Tropical Female and Tropical Exhibits at local shows, Tropical female for the Moreton Region 2003, winning her class at Beef Week 2003 and a 3rd at the Ekka in top company. In 2015 Ruby won second place in the Produce of Dam Class at the Brisbane Royal. Ruby has been used in a number of ET programs and as a result produced a number of elite stock that we have shown with great success. Ruby was laid to rest at the grand old age of 19, having produced 3 lifetimes worth of calves.

We enjoy showing our cattle and aim to compete at the Brisbane Royal, Toowoomba Royal, Beef Week and a few local shows. We believe showing cattle is the best way for people to compare livestock from different producers. All cattle we have shown at Ekka to date have bought home a ribbon.

Some of our past sires include: Yarrawonga Ruthless(P)(Brisbane Royal Grand Champion Santa Gertrudis Bull), ½ Share in Goolagong Kakadu (Brisbane Royal Reserve Senior Champion

Santa Gertrudis Bull) with Phillip Kirkby and Rose Oak Lucifer (AI)(ET) who was sired by Waco Samson.

Our current leading sire is Yarrowonga Yemen (Brisbane Royal Grand Champion Santa Gertrudis Bull).

We sell beef direct off the farm to the public. Steers/cull heifers are processed and sold to clients throughout South East Queensland. The colour, texture, tenderness and flavour of the meat are far superior to what our clients have previously purchased elsewhere which has resulted in many happy repeat customers. We promote Santa Gertrudis as a premium quality product.

This year's sale bull is sired by Rose Oak Lucifer who is the result of an ET Program we conducted. Lucifer was successfully shown at the Ekka and his full flush sister, Rose Oak Lucy, won her class at the Ekka as a senior cow with her calf at foot. Lucifer was aired by Waco Samson.

All our stud bulls are Vet checked yearly for soundness and semen quality before breeding season this ensures both our breeding season to be successful and our clients to be assured the proven fertility of all stock we offer for sale.

ROSEHILL

Rosehill is situated at Clifton on the New England Highway and owned by John and Rosemaree McCarthy. The stud was established in 2012. We have used A.I. and embryo programs using leading sires, with Rosehill Jameson 4 being our most successful sire. He has been the sire of most of our champion females and top priced bulls.

We have had great success in both the show ring and at sales. Our cattle results speak for themselves with good growth and structure. Our latest results being at Beef 2021 were Res. Senior Champion Cow with Rosehill Q85, a Jameson 4 daughter. She also won fantastic female at Farmfest this year.

Over the last 4 years at the Big S sale, Rosehill has sold the top priced bull and had the highest sale average. This year we are selling Rosehill Rex (Polled) sired by Rosehill Lauchlan. He has been vaccinated for 7in1, 3day and 3germ and will be vet inspected and semen tested prior to the sale. For photos go on our Rosehill Santa Gertrudis facebook page.

SANTALANDS

2021 represents 51 years that the Holt family have been breeding registered Santa Gertrudis cattle. The stud was originally located at Tamborine Mountain and the first classified females purchased at several dispersal sales including Colinton, Sherglen and Oakleigh. A son of King Ranch Emperor was purchased at Tamworth in 1973 and proved to be a great sire and bred many outstanding progeny. Bulls were sold annually at Rockhampton Sale for many years until the stud herd was moved to a new home "Lauralla" at Cambooya in 1984.

Since then the stud herd has moved many times as other properties have been acquired. Since then, successful sires have been purchased from many studs including King Ranch, Yarrowonga, Big Sur, Rosevale, Goonoo and Narganoo.

There was a need for a multi-vendor sale in south east Queensland and we were fortunate to be invited to join the formation of the Big S Group in 1974 where we sold bulls at the first four sales. The sale was then held at "Argyle" Kingsthorpe owned by the Hart family

and was a great success for many years before being relocated to Ag Show at Toowoomba Showgrounds in the 1990's.

Santalands bulls and females have been sold into many prominent stud and commercial herds over the years and have continued to breed consistently with pleasing results. We continue to breed and select our cattle based on fertility, constitution, breed type and temperament. These attributes, together with the great weight gaining ability and commercial acceptance of the Santa cattle, have been a very successful combination .

We guarantee the fertility and soundness of our cattle and have enjoyed a strong demand from repeat buyers for many years.

WAKAN MAKI SANTA GERTRUDIS STUD

Wakan Maka Santa Stud is situated in the Jiggi Valley, north west of Lismore in the Northern Rivers Region of NSW. We are a small stud on 270 acres, our land consists of productive creek flats through to variable hill country and plateaus.

Jeremy and Robert are passionate about their cattle, animal health, the use of appropriate animal husbandry practices and importantly the Santa breed. We pride ourselves on herd fertility (by selection), the temperament of our livestock (culling at weaner stage) and the natural doing ability of our cattle (proven breeding).

In 2019-2020 we had to sell approximately 38% of the herd, due to diminishing water supplies and the need to buy feed; but like many, we are now slowly building up herd numbers again.

WARENNA

Warena Santa stud was founded in the mid eighties with purchases of foundation 2x females from Marrett and Pinaroo studs. At the same time our first stud sire was purchased from the Goondiwindi Santa sale, Pinaroo Dynasty (p) by Cumberland Winrock.

Dynasty was instrumental in setting a platform for our stud, producing some exceptional poll females. A few years later Pinaroo Hank was purchased to improve the herds frame score. Other bulls used in this period were Pinaroo Fitzroy and Omeo Imran(p).

With the relocation of our stud from Goondiwindi to Pittsworth we also purchased a line of santalands females and another sire in Auburn Jaguar, who goes back to king ranch blood. Jaguar was the first bull to put a significant stamp of modern style santa with exceptional breed character into our herd. Our next two sires, Warena Arthur (p) by Waco Opportunist and Warena Duke (p) by Yarrowonga Ruthless, gave us a huge boost in poll genetics.

Bullamakinka H160 was purchased next for his fine cherry red coat and exceptional breed character.

Bullamakinka Hotshot (p) by Gold Edition has complimented our breeding program with his progeny showing plenty of soft loose skin with good ADWG and fat scans.

Last year we purchased Spring Creek P616 (p) to join over our hotshot females. We are eagerly awaiting to see his first calves in the spring.

Orbit was a very young calf @ foot when we purchased J24. Orbit has a quiet temperament with a slick tropical coat. He is a late-maturing type who is going to grow into a large-frame bull. With his neck extension and smoothness through his shoulders plus the data we have collected, it suggests he would be a good heifer-joining bull.

Oxford has been a standout since the day he was born. He has been the top-performing bull in his group for daily weight gain and his scan results @ 14 months of age were top of the tree. Oxford is an early-maturing, moderate-frame bull with great spring of rib. He has a combination of thickness with softness. A definite powerhouse package.

Rose Oak Prolific combines carcass and maternal traits as well as any bull in the business. Prolific is a stand out bull due to his phenotype, bone, muscle mass and balance, while maintaining structural correctness and soundness. Prolific is a led bull and has been shown lightly. His half-sister, Rose Oak Quintessa, also sired by Rose Oak Lucifer (ET) (AI) was awarded Supreme Bos Indicus Female at the Warwick Agricultural Show earlier in the year. This bull will not only get the job done, but he is sure to take your herd in the right direction in leaps and bounds. Prolific is a bull that will produce a reproductively sound female line which is of huge financial benefit to every stud. Prolific has been lightly used. Semen has been collected for in herd use and a 1/8 share will be retained. There will be no further call on the bull.

By the outstanding sire Yugilbar Councillor (AI) (P), this calf is rising 27 months of age. In the top 5% for 200, 400 and 600-day weights for Santa calves born in 2019. He has been an absolute pleasure to handle and watch develop into the bull he is today. His length of body, stretch of hindquarter along with a smooth tropical coat are his redeeming features.

A growthy calf, with paternal and maternal genetics from Rosevale Stud. EBV wise he is in the top 1% for 200, 400 and 600-day weights. Homozygous polled, this calf will pass on pronounced muscling characteristics and earlier maturing traits. Held in good regard by the Nioa team, he was used lightly over some maiden heifers in 2019. A draft of these heifers is listed in this catalogue.

A clean coated polled heifer, very well framed with good spring of rib. A solid effort all around when it comes to the EBVs, standout features in particular being the high 200 day weight, enabling cattle men and women who sell calves straight off the cow to buy with confidence knowing her genetics will do the right thing by their herd. Due to calve mid-August, will be offered for sale PTIC or with calf at foot by NIOA Quigley Q10 (ET) (AI) (PP).

Sadly, surplus to requirements within the NIOA Stud, our loss is your gain of maternal generational genetics. Aptly named NIOA Queen her stand out feature are her inherited and own genetics. Sired by Moongana Karachi 2724 (P) out of Gyranda M553 (P). Her 200 to 600 Day EBVs are in the top 25% for her calf drop across the Santa Gertrudis herd nationally. Commercial or stud operators would benefit from the weight for age genetics. Due to calve mid-August, will be offered for sale PTIC or with calf at foot by NIOA Quigley Q10 (ET) (AI) (PP).

CHAPTER ONE – PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
 (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
 (c) A buyer is bound by these terms and conditions by bidding at auction.
2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively omcludes the servants, contractors, agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
 (b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
3. The following applies in interpreting these terms and conditions:
 - (a) The following words have the following meanings:

Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent; Livestock means animals auctioned pursuant to these terms and conditions; and Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions

 - (i) plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
 - (ii) plus any GST added in accordance with clause 12.
 - (b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO – STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
7. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.
10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
 - (a) the purchaser's name; or
 - (b) the bid card number which identifies the purchaser; or
 - (c) the name of the person on whose behalf the successful bid was made; and
 - (d) the Property Identification Code (known as the "PIC") of destination.
12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
13. As soon as practicable after the fall of the hammer, the buyer shall if requested by the agent, sign the agreement for sale.
14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in a written agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.
16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negatived as far as possible.
17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
 (b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
 (c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
18. (a) Subject to this clause the sale is complete on the fall of the hammer.
 (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
 - (i) delivery is taken by a representative of the buyer;
 - (ii) departure of the animal from the purchaser's delivery pen; or
 - (iii) one hour after the last animal is:
 - a. in the case of pre-sale weighing, sold; or
 - b. in the case of post-sale weighing, weighed.

- (c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
- (d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.
- (e) This sub-clause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, through delivery to and from the scales, to the buyer's delivery pen and on to the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This sub-clause does not apply if the agent makes an announcement to that effect prior to sale.
19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.
- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.
- (d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (f) Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLIS/ERP database, the agent will inform the buyers by presale catalogue and/or announce the status prior to the offering of those lots.
20. If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:
- (a) does not acquire title to the livestock;
- (b) holds the livestock as bailee only for the vendor;
- (c) must act in a fiduciary capacity in its relationship with the vendor;
- (d) must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
- (e) is responsible for the safety and well being of the livestock;
- (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
- (g) must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
21. In addition to clause 20, if payment is not made according to clause 15, but delivery has been made to, or possession obtained by, the buyer or its representative:
- (a) The vendor or its agent may repossess and resell the livestock and enter property owned or occupied by the buyer or its representative if necessary to do so; and
- (b) Interest may be charged at the rate usually charged by the agent for overdue accounts on any amounts which remain owing at any time.
22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
- 23.1. Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the *del credere* agent of the vendor at law.
- 23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- 23.3. When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.6 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.
- 23.4. Title to the livestock does not pass to the agent or a nominee of the agent unless the agent, by written notice to the vendor, notifies the vendor that it is to be transferred to the agent or a nominee of the agent.
- 23.5. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:
- (a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
- (b) when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and, where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.
- 23.6. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).
- 23.7. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:

- (a) do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
- (b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- 23.8. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.
- 23.9. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
- (a) by this clause 23, other than as it expressly provides; or
- (b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- 23.10. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.
24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.
- (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.
- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.
- (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE – VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
- (a) pass DAFF and other regulatory authority requirements and inspections at the time of slaughter; (DAFF refers to the Federal Government Department of Agriculture, Fisheries and Forestry)
- (b) are of merchantable quality;
- (c) carry an NLIS device in accordance with State law;
- (d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in the NVD, the livestock will have those characteristics or will be fit for the particular purpose or market; and
- (e) all information in any NVD provided by the vendor is true, complete and correct in all material respects.
28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
31. Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:
- (a) the buyer will be entitled to delay payment for the price of all livestock in that lot only; or
- (b) the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
- (a) any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
- (b) any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and

(c) any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR – OWNERS RISK FOR CONDITION OF CATTLE

- 33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- 34. Owners risk reflects the producer’s responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by DAFF. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the DAFF certificate, existed prior to the fall of the hammer.
- 35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
- 36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
 - (a) a certificate is issued by DAFF which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
 - (b) the certificate is received by the selling agent either in its original form or by fax by 5:00pm on the 7th day after the fall of the hammer; and
 - (c) if the condemnation is due to chemical residue the certificate follows testing in a DAFF approved laboratory which establishes maximum residue limits in excess of the Australian limit.
- 37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of the following:
 - (a) bruising,
 - (b) fever,
 - (c) partial condemnation, or
 - (d) emaciation.

CHAPTER FIVE – NOTICES REQUIRED BY STATE LEGISLATION

NSW Legislation

Property, Stock and Business Agents Act 2002 Warnings

Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:

- (i) to abstain from bidding; or
- (ii) to bid to a limited extent only; or
- (iii) to do any other act that might prevent free and open competition.

Severe penalties may be imposed on persons convicted of collusive practices.

The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.

Tasmanian Legislation

An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

Western Australian Legislation

Auction Sales Act 1973 s31 NOTICE. It is an offence to:

- (i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;
- (ii) abstain or agree to abstain from bidding as a result of such a promise;
- (iii) knowingly enter or permit or cause to be entered in the auctioneer’s record any name other than that of the actual successful bidder;
- (iv) enter in the auctioneer’s record the name of the buyer other than that of the actual successful bidder; or
- (v) in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
