

Rolleston
Santa Gertrudis AND
ANGUS
SALE

13 SEPT
2021

Sale Information

Welcome

WHEN AND WHERE:

Monday 13th September 2021 @ 11am
Rolleston Livestock & Grain

Bull Selling Complex, Dip Road, Rolleston

PRE-SALE VIDEOS, INFORMATION & INSPECTIONS -

Callandoon Angus bulls are running 28kms south of Springsure. Inspection of the bulls is most welcome prior to the sale by arrangement with Glen.

Broad leaf Santa Gertrudis bulls are running at Bottle Tree Downs, 20kms west of Rolleston. Inspection of these bulls can be arranged with Tim.

The bulls will be penned at 9am ready for your inspection on sale day but inspections will also be available on Sunday 12th September 2021 from 10am at the Rolleston Selling Complex.

Photos are available on the Callandoon Angus Facebook page as well as the Broad Leaf Santa Gertrudis Facebook page.

We welcome all enquiries.

Glen McKinlay 0427808832
Tim Patterson 0427170156
Greg Hardgrave (Country Co) 0418759267
Josh Heck (GDL) 0409732676

DELIVERY - Delivery can be arranged. Please discuss your delivery requirements with Glen, Tim or the selling agents.

COVID-19 - This sale will be Covid-19 compliant to the guidelines issued by the Australian government and medical authorities on Sale Day. Please check-in upon arrival.

TERMS - This auction will be operating under the ALPA association terms and conditions of sale.

REFRESHMENTS - A canteen will be available on sale day. All proceeds will be donated to the Rescue Helicopter.

HEALTH AND VACCINATIONS - All the Broad Leaf Bulls have been vet inspected and semen morphology tested. They have all been vaccinated with 7 in 1, 3 day, vibrio and 3 germ blood. All of the bulls have been pre-treated for ticks. Bottle Tree Downs is jbas 7 compliant. A supplementary sheet will be available with weights, EMA and fat scan information on the day.

BULL EVALUATION AND SEMEN MORPHOLOGY - Ced Wise AB Services and Rocky Repro

SCANNING AND SUPPLEMENTARY DATA - Lonnie Stone scanning services

All Callandoon Bulls have been vet inspected and semen morphology tested. All Bulls have been vaccinated with 7in1; 3-day sickness and 3 germ-blood. All bulls have been pre-treated for ticks and are ready to clear into clean areas if required. A supplementary sheet will be available with weights, EMA and fat scan information on the day.

BULL EVALUATION AND SEMEN MORPHOLOGY - Ced Wise AB Services and Rocky Repro

SCANNING AND SUPPLEMENTARY DATA - Lonnie Stone scanning services

DISCLAIMER:

The vendors have endeavoured to produce this catalogue with care and accuracy and will not be responsible for any errors or omissions. All persons who attend the sale do so at their own risk. The vendors, staff and agents do not assume or accept any responsibility or liability, of whatever nature, legal or otherwise, for any accident, injury or damage which may occur.

Tim and Trina Patterson and family would like to welcome you to the first Rolleston Santa Gertrudis and Angus Bull Sale. This year we have teamed up with Glen and Loy McKinlay from Callandoon Angus to present a line of bulls that have been bred in Central Queensland.

Our family have been breeding Santa Gertrudis cattle since 1985, going on to register the Broad leaf Santa Gertrudis Stud in 2004 with the aim to produce cattle that are suited to a Central Queensland Bullock Breeding operation, and ultimately the global beef market.

The Bottle Tree Downs breeder herd is selected on fertility, temperament, environmental and market suitability and is the foundation of our stud. Sires for the Broad leaf Santa Gertrudis Stud have been selected with careful consideration given to the dam line, as we believe that any herd improver in a commercial herd is only as good as the cows he leaves behind.

This year's sale Bulls were running on buffel country, Dolochus Lab Lab, then Oats with restricted access to a Bull ration. These bulls have had a very challenging start to life being born and weaned in the toughest season we have had at Bottle Tree Downs, however, they are now looking fit and well.

In recent years, we have like many other beef producers, shifted from selling Bullocks and fat heifers to selling feeder cattle. The Rolleston Santa Gertrudis & Angus Sale offers the commercial producer the opportunity to buy bulls that will produce progeny that is highly sort after for their performance and eating quality as a weaner, a feeder, or at the meatworks, while still handling the local conditions.

All the bulls have been vaccinated with vibrio, 3 Day vac, 7in1, Semen tested, Morphology evaluated, and are J-Bas 7 accredited. We aim to produce bulls that are fit, healthy and don't need letting down. Broad Leaf cattle are bred in the ticks, flies, and heat of Central Queensland to meet the challenges of breeding better beef in northern Australia.

Prior inspections are welcomed and we would love to see you at the sale on Monday, 13th September at 11am.

Reference Sires

Strathmore Nullarbor N644 (PP)

SIRE: Strathmore Jazz J276 (P)

DAM: Strathmore E89 (P)

He combines the genetics of Tyndale Noddy, Wave Hill Major, and Yarrawonga Matrix. All sires that have had a big impact on the Santa Gertrudis Breed. He is out of a cow that first calved as a 2yr old and had 5 calves in 5 seasons at time of purchase.

Greenup Noble N268 (PS)

SIRE: Greenup Fitzgerald F144

DAM: Eidsvold Station D641

By Greenup Fitzgerald out of cow that first calved as a 2yr old and had 9 calves.

Broad Leaf N77 (P)

SIRE: Greenup Juggernaut J274 (P)

DAM: Broad Leaf G224

Kept for his carcass and to carry on the Juggernaut line that has been very successful at Bottle Tree Downs. He is out of a graded up cow, bred in the commercial herd.

Greenup Lockyer L120 (PP)

SIRE: Dangarfield Tycoon (P)

DAM: Greenup Asha A93 (P)

Lockyer is by Dangarfield Tycoon who produced lots of good quality cattle at Greenup/Eidsvold Studs. He is a large framed bull with an exceptionally quiet nature. Greenup Asha (P) has 11 naturally sired calves recorded.

Greenup Juggernaut J274 (PS)

SIRE: Greenup E294 (P)

DAM: Greenup December D95 (P)

Juggernaut is quiet natured bull with a good balance of performance across all traits.

Rosevale Buster F500 (P)

SIRE: Tookey Creek 8645(PS)

DAM: Rosevale Leah Y239

12yr old and still producing the goods, an early maturing poll bull from a very fertile cow. RV Leah had 11 calves in 11 seasons.

Rosevale Kingswood K296 (PS)

SIRE: Wightfield Downpour G21(P)

DAM: Rosevale Jade E407(P)

Kingswood has a strong pedigree of performance on both his sire and dam lines.

Broad leaf Kingdom J23 (PS)

SIRE: Rosevale Empire E464

DAM: Broad Leaf G226(P)

Kingdom is the result of an AI program. Like his sire he has produced consistently high morphology results. This yearss morphology was 98%. G226 was graded up out of the commercial herd, first calved at 2yr old has had 9 calves and is still active in the herd.

Broad Leaf Fitzroy F41

SIRE: Gyranda B254

DAM: Broad Leaf C16

Fitzroy is a long bodied, very correct bull with a super quiet nature and a prolific calf getter. He was retained to carry on the Gyranda B254 blood lines.

THANK YOU FOR ATTENDING OUR SALE AND WE WISH YOU WELL WITH YOUR PURCHASES.

A WARM WELCOME TO OUR INAUGURAL COMBINED BULL SALE.

Callandoon Angus has moved to Rolleston Saleyards to share Sale Day with Tim & Trina Patterson of Broad Leaf Santa Gertrudis Stud. We were sad to see the Emerald CHABAS Sale close due to lack of bull numbers; but now we are excited about a new concept in Rolleston.

This year's bulls have had plenty of challenges to face – a very dry end of 2019; weaned in January 2020 and then a wet March with plenty of nasties ... wet yards, ticks, fly and no oats to go on to.

2021 has been a better year. More rain in Central Queensland and a cattle market where it has never been. This year's 'R' weaner bulls have had a much better start and will go on to the tail of the oats to help them grow out and then they will follow up onto the Leucaena paddock.

After our cows tested 93% this year, we eagerly await the calves of some new sires – mainly the Burenda Brangus bull and two new Dulverton sires, one of which was used at Dulverton as a weaner bull and has some exciting progeny on the ground.

So, this year, we present our bulls for your competition, with AI bulls by Sav International; Capitalist and Dulverton and Gilmandyke sires mainly. Bulls will be semen and morphology tested, fat scanned and dipped, ready to clear into clean areas.

Thank you for coming to our joint Sale. We look forward to helping you with our bulls.

Team Callandoon.
