

## Welcome to the 2023 Greenup Eidsvold Station Sale Team.

The sale will be on **Thursday September 14, 2023, commencing at 12 pm at “Belvedere”, Eidsvold.**

This 2023 team offers 140 Santa Gertrudis bulls, of which 125 are Classified ‘S’ bulls and 112 are poll/pollscur.

2023 marks 175 years since Eidsvold Station settlement in 1843, and the 66<sup>th</sup> Eidsvold Bull Sale. We are commemorating this milestone with a new sale complex at ‘Belvedere’, Eidsvold and invite you to join us.

As well as heralding another chapter in Australia’s oldest Santa Gertrudis Stud, Eidsvold Station, Stud 2, the Belvedere Sale Complex reflects our commitment to breeding Santa Gertrudis for the Australian Beef Industry and recognises the expanding demand for the breed’s versatility and desirability in a multitude of markets and environments.

The 2023 draft offers depth and consistency across our signature traits: temperament, fertility, muscling, explosive growth, easy-doing constitution, with desirable tropical attributes - underpinned by our strict standards.

There are standards and there are parameters. Standards like temperament, structure and fertility are non-negotiable. Once potential sires meet our standards, then we consider parameters for traits that are measurable, repeatable, and reliable.

Cattle breeding rewards patience and consistency, with permanent and cumulative gains if the breeding objectives are adhered to. This year’s breeding decisions will impact your herd for the next two years to two decades. Now is the time to review: What traits do we seek / wish to avoid? What are our standards? What parameters suit our herd, environment, and markets? What do we want less of? What do we need more of?

‘Intensive-extensive’ was how our operation was described recently. The bulls are bred in extensively managed herds in a range of environments and are monitored and measured at every stage. No special treatment is given to any cow, bull, or sire. Genuine pressure on the female herd, that does not include masking and compensation by management, realizes constitutional superiority and fertility.

Our rigorous drafting allows the cream to rise to the top. The 2023 sale team average EBVs are in the top 20% for most traits. Our bulls run in large cohorts, while being measured and compared until 400 days. From 400 days onwards, the draft of 700 bulls is whittled down to the 140 bulls presented for sale. The sale team has passed semen morphology and assessed by BULLCHECK accredited vet, Stacey Rae, Monto Vet. Our standards result in bull returns/breakdowns that are less than 1 bull breakdown per 200 bulls sold.

The sale will be livestreamed and interfaced with AuctionsPlus. We welcome pre-sale inspections. Full catalogues are available at [www.greenup.com.au](http://www.greenup.com.au) or contact us or our agents, Elders and GDL, for a hard copy.

For your peace of mind, the herds are JBAS 7, the bulls are cleared for ticks, and fully vaccinated, and free delivery is offered to major selling centres and on-property wherever feasible.

We look forward to seeing you at “Belvedere”.

Rick, Alice, Ruby, James & Rory
