## Sale Bull Preparation.

The Bullamakinka sale bulls were weaned in July 2022 and had access to an oats crop from August – November 2022. Bulls were then put onto improved pastures to Jan 2023 with some access to protein licks with limited amount of supplementation. Early February the bulls were moved to Dolichus Lab Lab and forage sorghum paddocks and then moved on to oats in June with some supplementation in the last month before sale with the seasonal effect on the oats. At no time have the bulls been fed in pens and are made to walk some distance to water points in their paddocks and have been run in two separate mobs depending on age and size. The Narromine bulls have had a very similar preparation.

## Sale Safety

All our bulls are selected on good temperament and are quiet to handle under normal conditions. On sale day, many people enter bull pens for inspections and can place additional pressure on the bulls. This could result in the quietest bull doing something unpredictable and we advise people enter the bull pens at their own risk and only when necessary. No children are to enter the bull pens. We ask that you do not enter inside the pens unnecessarily and if you require an inspection of the

bulls please ask a stud representative or the selling agents.

## Inspection

Sale bulls will be transported to the Longreach saleyards four days prior to sale and penned on the day of sale. Inspections are welcome prior to the sale at Longreach or earlier at our bull depot on 4368 Gore Highway, Pittsworth prior to being transported.

## Accommodation

We encourage any intending purchaser that requires accommodation to book accommodation early

## Refreshments

Refreshments and food will be available at the saleyards on sale day.

## Scanning/Semen Tests

All sale lots will be scanned and semen tested by Paul Kenny. Scans and measurement will include scrotal, EMA, IMF, rib and rump fat. Semen tested for crush-side motility and lab tested for morphology.

## Neogen DNA

Most of the sale bulls have been DNA sire traced. Some of the bulls that haven't been traced will be due to the sire DNA not being available for testing or the bulls are in the process of further DNA testing. Additional DNA results should be available for dams of the sale lots and available in the supplementary sheet prior to the sale.

# WELCOME

Welcome to our annual Bullamakinka bull sale and our first sale being held in Longreach. After many years of conducting our own annual bull sales on the western downs we are now offering our entire draft of Bullamakinka sale bulls at Longreach for the first time.

The majority of our bulls over many years have found their way into the central west and western regions with most going to repeat buyers. We believe the decision to bring our entire draft of bulls to Longreach will make them more accessible for commercial breeders in this area and underlies our emphasis on supplying bulls for the commercial breeder market.

Our sale draft this year is well represented by both home-bred Bullamakinka sires and purchased sires with our emphasis on selection of sires to maintain growth, fertility, adequate muscle, bone, softness, trim sheath, breed character and quiet temperament. The majority of the sale bulls offered are polled or scurred but we have included a number of horned bulls in the sale to cater for breeders that still require horned bulls.

This year's draft is represented by some of our proven Bullamakinka sires including Bullamakinka Rimfire (P) by Yarrowonga Diplomat (P), Bullamakinka Patriot P2 (P) by Waco Flynn, Bullamakinka K84 (P) by Canowindra Gold Edition and first season sire Bullamakinka Q80 (P) being a son of Rimfire. Many of our sale bulls are by new purchased sires including

Waco Nelson (PS), Waco N124, Glenn Oaks Nashville (PS), Dunlop L134, Yarrabee Himalaya (P) and Santahat Playboy.

All of our sale bulls this year are crush side semen tested, morphology tested, scanned and fully vaccinated with 3 germ blood, vibrio, 7in1, and 3 day sickness.

We plan to hold bull walks at our bull depot near Pittsworth on 31 August and 10/11 September prior to the bulls being trucked to Longreach on the 16 September.

We would also like to welcome invited stud vendor, Narromine Santa Stud based at Moonie on the western downs. The Narromine stud is largely based on Bullamakinka genetics and they are offering twelve bulls through the catalogue.

Catalogue, bull videos and photos available online at [www.bullamakinka.com.au](http://www.bullamakinka.com.au) Pre-sale inspections welcome.

## **Bullamakinka Santa Gertruds Stud**

Bullamakinka stud was formed in 2006 following the acquisition of "Bullamakinka" in the Goondiwindi district and after investment in the purchase of select lines of breeders from leading studs.

Originally when the stud was established, two foundation sires in Warena Sentry (P) and Canowindra Gold Edition bred extremely well with their genetics forming the base of our current breeder base of approximately 400 breeders.

Bullamakinka has continually invested heavily in sourcing some of the best genetics available every year to introduce outside blood into our herd to assist in maintaining our breeding traits and broaden our genetic base.

## **Invited Vendor Narromine Santa Gertrudis Stud**

Narromine Santa Gertrudis stud is owned and operated by Boyd and Susan Rohde, "Narromine", Goondiwindi. Our property is situated 70km north of Goondiwindi.

Our breeding contains bloodlines from Bullamakinka, Yarrowonga, Waco, Murrumbidgee, Tara, and Dangarfield.

Bullamakinka Hercules H10 was purchased in 2013 and has played a major role in our stud operations. We have retained progeny from H10 which continue to build our herd. Further notable investments in Bullamakinka bloodlines include 266 and R14 which we look forward to showcasing in next year's draft.

The Narromine draft of bulls has been prepared on forage sorghum in the summer and forage oats during the winter season. The bulls have been on minimal supplementary feed and are being presented in a fit and healthy condition.

All sale bulls have been vaccinated for 3 day, 3 germ, 7 in 1 and tested for Pestivirus. All bulls have been semen tested and inspections completed.
